**Kind Attn: Mr.Ravi Kumar- Sr.Manager (CS), CC&M,**

**Dear Sir,**

**Greetings of the day,**

**With reference to the teams meeting we had with your Bid Committee regarding the Performance Security requirements for the Carbonated Fly Ash Brick (C-Brick) Plant of 2 Lakh Bricks per Day Capacity at NTPC Ramagundam. During the discussion, we were requested to examine the possibility of submitting a Performance Bank Guarantee equivalent to 10% of the contract value, in lieu of the 3% stipulated in the tender provisions.**

**In this context, we wish to inform you that we shall provide the Performance Bank Guarantees in accordance with ITB Clause 31.1 and the provisions of the Bid Data Sheet (BDS), namely:**

- 3% Performance Security towards the Contract (excluding O&M and Lime Supply), and
- 10% Performance Security towards O&M and Lime Supply, to be submitted prior to the commencement of the O&M period.

**These securities fully satisfy the obligations defined under the bidding documents. Accordingly, we regret to inform you that we are unable to furnish Performance Bank Guarantee amounting to 10%.**

**However, as a gesture of goodwill and cooperation towards NTPC, we are agreeable to enhancing the Performance Bank Guarantee from the stipulated 3% to 3.5% towards the Contract (excluding O&M and Lime Supply), and 10% Performance Security towards O&M and Lime Supply, to be submitted prior to the commencement of the O&M period which shall remain same.**

**In addition to the above, as you are aware, we are also required to submit Advance Payment Bank Guarantees to avail the contractual advance payments, which are essential to support the cash flow required for the timely progression of the manufacturing works. These additional guarantees represent a significant financial commitment on our part and are vital to meeting the agreed project timelines.**

**We would also like to mention that our bid has been worked out very competitively, keeping in view NTPC's vision and the future potential of CO2 based sustainable technologies. We have factored CO2 utilization as a forward-looking initiative, aligned with national and global sustainability objectives, and have accordingly priced the project with a long-term perspective.**

**In view of all the above, this enhanced submission will address the Committee's requirement while remaining fully aligned with the contractual framework. We assure you of our continued commitment to the timely and successful execution of the project.**

**Thank you for your understanding.**

**Regards**

**P.C.S.Reddy**
